doi: [10.1029/2019RG000678](https://doi.org/10.1029/2019RG000678)

We assessed the values of the total and 6 individual cloud feedbacks based upon 4 lines of evidence from the available scientific literature :*

- a) Satellite Observations*
- b) Large-eddy Simulations*
- c) Theory*
- d) GCMs*
